BASE STACK

- Remove shelves and posts
- Stack bases on top of one another (10 to 14 per stack)
- Corner of bases interlock
- Be sure that the barcodes are all on the same side of the stack

POST STACK

- Utilize a single base with 4 posts
- Stack 14 posts across the shelf in a single layer
- A max of 10 layers of posts per stack

SHELF STACK

- Utilize a single base with 4 posts (groove facing in).
- Add 1 shelf to lock in the posts at the base.
- Add a second shelf at the highest point of the uprights to lock in the shelves at the top.
- Slide in the remaining shelves one upside down, and the next right side-up until completed.
